

At The Carlton we are extremely fortunate to have an excellent choice in specialist, quality and local suppliers on our doorstep.

From the small, like Tony The Butcher, who is a sole trader and works from his shop in Muddiford to the bigger, like Savona SW a specialist wholesaler based in Mullacott, but serving the region. Each one has been selected by us for their suitability, produce, quality, service and other factors like sustainability.

Devon and Cornwall fish based in Appledore, buys fish landed here in Ilfracombe and also at Appledore. The fish caught by day boats, using nets that are much better for the marine environment.

Edds Greengrocer promotes truly local vegetables, many grown in the Great Field at Braunton.

Your morning coffee is roasted here in Ilfracombe and expert Steve Nuth ensures the beans he buys benefits local Ugandan communities.

Together 85% of our fresh produce spend comes from our suppliers within thirty miles of the hotel.

We use specialist producers like Clifton Coffee Roasters and Arthur David, both near Bristol, for those ingredients that cannot be sourced on our doorstep.

We are proud of our suppliers and hope you really notice the difference with the food on your plate.

Please let us know either way!
