Add on a hot drink £3

Pot of tea, *gf*

Filter coffee, *gf*

VG, vegan / plant diet | *V*, vegetarian diet | *gf*, gluten free diet

I am asking you for a small increase in the meal price from June. This is because our costs are increasing. Costs like wages, national insurance and PAYE. Pension costs for our team too. Other direct costs like energy have increased since this conflict between the US and Iran and some foods have now started to increase. Same time we now pay more for waste and recycling.

I try and mitigate these costs by buying from local suppliers (who are always better value) and also by preparing all dishes from scratch. I hope you can see the value. *Eliot*
